SYSTEM AND METHOD RELATED TO GENERATING AND TRACKING AN EMAIL CAMPAIGN

ABSTRACT OF THE DISCLOSURE

A method and system for generating and tracking an email campaign is described. An email campaign generator generates an email campaign template from an email target database. The email target database comprises at least one email target. An email campaign engine generates a custom email corresponding to each of the at least one email target. The custom email is formed from the email campaign template. The email campaign engine sends to each of the at least one email target the corresponding custom email. A campaign tracker receives at least one response corresponding to the sent custom email. The campaign tracker creates a campaign tracking list that includes the received at least one response.
